Health Insurance

There are 3 options for health insurance in Canada, Ontario Health Insurance (OHIP), Interim Federal Health program (IFHP), or private insurance (through work, school, or privately purchased)

Ontario Health Insurance Plan (OHIP)

Ontario Health Insurance Plan (OHIP) is a free, provincially funded health insurance for Ontario residents. It covers medical procedures including family physician visits, hospital care and specialist appointments. If you are not covered by OHIP you must pay for your own medical expenses or pay for private insurance. You should apply for OHIP as soon as possible.

There is a 3-month waiting period for OHIP when you enter Canada as a Permanent Resident. During this time, medical services are not covered, except for services available at a Community Health Centre (CHC). You may need to buy private insurance during this time or look for free or low cost services at a Community Health Centre. To find a CHC close to you, visit: www.aohc.org/find-a-centre

What does OHIP Cover?

- Family physicians visits and walk-in clinic visits
- Hospital stays
- Any testing ordered by a physician such as bloodwork, x-rays, ultrasounds, etc.
- Annual eye exams for those under 20 and over 65 years of age with optometrists
- Physiotherapy for those under 20 and 65 and over as needed
- OHIP does NOT cover medications, dentists, physiotherapy, optometrists, nor eye glasses for people between the ages 20-64

Interim Federal Health Program (IFHP)

Interim Federal Health (IFHP) is a program that pays for medical services for some refugees and refugee claimants.

What does IFHP Cover?

- Essential & Emergency care to treat and prevent serious medical conditions
- Essential prescription medications and some vaccines
- Your coverage varies depending on the specific type of IFH you have, this information can be found on the paper copy of your proof of IFH

Private Health Insurance: Private health insurance may be offered through your work or school, or you can purchase plans that meet your needs. Visit www.olhi.ca/insurance-finder for private health insurance.
